Facility Solutions Group

CARVER ACADEMY

San Antonio, Texas

This ground up high school is a private, non-profit school founded by David and Valerie Robinson. Construction was done in three phases over three years. The campus consists of four classroom clusters, each with a courtyard. Administrative buildings, a quadrangle, science laboratory, technology center, and a cafeteria make up the rest of the campus.

FSG provided complete electrical construction services on this project. From design to final punch list.
